

SAE-AN ENERTECH CORP.

Address	922, 184 (Byeusan Digital Valley II), Gasan digital 2-ro, Geumcheon-gu, Seoul	President and CEO	Mr. Park, Jae-seok
Website	www.sae-tec.com	Number of Employees	204
Person in Charge	Mr. Kim, Hong-chul	Date of Establishment	June 29, 2018
Affiliation	Deputy General Manager, Management Support Division	Nuclear Sales in 2018 (in Million KRW)	KRW 11,600 (Million)
Office Number	(+82)-2-2102-2824	Business Field	Waste Management
E-mail	satec@sae-tec.com		

Company Introduction

SAEAN ENERTECH is a professional company which is providing Radiation related Services such as Nuclear Power Plant Decommissioning & Decontamination, Radiation Protection, Transportation, Radiation Measuring Equipment Calibration Services. Before the spin-off from SAEAN, SAEAN ENERTECH had accumulated a lot of experience and know-how in Radiation related projects.

Major Products and Services

- Professional Services for Nuclear Power Plant Decommissioning and Decontamination
 - Radiological Characterization
 - Radioactive Waste Disposal
 - Others (Research)
- Radiation Management (Radiological Protection) Services
- Transportation Services
 - Low and Intermediate Level Rad-waste (Marine & Land)
 - Spent Fuel (Heavy and Light Water Reactor)
- Radiation Measuring Equipment Calibration Services
- Manufacture and Supply of Radiation Protection Equipment and Radioactive Waste Treatment Equipment

Major Business Records, Partners and Markets

- Radiation Management Service
 - Performed 11 cases including Radiation Management Services for Yeonggwang Nuclear Power Site Unit 1 ~ 6 for KHNP.
- Radiation Measuring Equipment Calibration Services
 - Performed 5 cases including Nuclear Radiation Measurement Equipment Calibration Services for KHNP.
- Radwaste Transportation Services
 - Performed 7 cases including Spent Fuel Transportation Services for Uljin Nuclear Power Site Unit 1 and 2.
- Securing high value-added cutting-edge technologies, SAEAN ENERTECH has been making company-wide efforts and trying to cooperate with worldwide companies like Canberra and NUKEM Engineering Services GmbH
- SAEAN ENERTECH is providing marine & land transportation services for Medium & Low level radioactive waste to KORAD (Korea Radioactive Waste Agency) and these services will be provided for the next 10 years.

Qualification, Certificates, Patents and Awards

- Qualification from KHNP (Certificates of Registration)
 - Radiation Management Services
 - Transportation and Storage Services for Spent Fuel of Heavy Water Reactor
 - Transportation Services for Spent Fuel of Light Water Reactor
 - Radioactive Waste Vitrification Facility Operation Services for Hanul Nuclear Power Site
- Other Qualification, Certificates
 - Accreditation for Calibration Laboratory (Korea Laboratory Accreditation Scheme)
 - ISO 9001(2015) and ISO 45001(2018)

- SAEAN ENERTECH has been securing 22 patents and utility models by developing equipment for site operation.
- Awards
 - Nov. 29, 2013. Awarded by Minister of Science, ICT and Future Planning for Contributing to National Development through Nuclear Industry Promotion
 - Dec. 23, 2015. Awarded by Minister of Trade, Industry and Energy for Contributing to Nuclear Industry Development
